RE: Opposition to Fountain Point Solar

RECEIVED-DOCKETING DIV

2022 NOV 16 AM 9:39

PUCO

As trustees in Richland Township in Logan County, we are writing this letter in opposition to the Fountain Point Solar project, Case # 21-1231-EL-BGN.

On August 11, 2022, The Logan County Commissioners voted to restrict 16 townships in the county under the authority of Senate Bill 52. Our township is one of those requesting and receiving such action.

We have heard the outpouring of opposition to these projects from our constituents and other residents of Logan County and the overwhelming sentiment is very clear. This project does not satisfy the public interest, convenience, and necessity as required by your decision criteria.

Given the current status of restrictions in Logan County, if this project were not "grandfathered" it would not even be a case before your board.

We strongly request that you reject this application and let the intent of SB 52 prevail. Bring solar decisions back to the people that are directly in the crosshairs of this assault on our rural communities.
