Re: **Pre-Application Notification Letter
In the matter of the Letter of Notification Application of AES Ohio for a Certificate of
Environmental Compatibility and Public Need for the
Amsterdam Substation Expansion Project
Ohio Power Siting Board Case No. 22-0834-EL-BNR**

Dear Chairman French,

The Dayton Power and Light Company, doing business as “AES Ohio”, files this Pre-Application Notification Letter for the above-referenced Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code (“OAC”).

AES Ohio is proposing the current Amsterdam Substation Expansion Project (the “Project”) located in German Township, within Auglaize County, Ohio. The purpose of this Project is to expand the substation yard by installing new and replacement transformers along with improving the electrical design. AES Ohio will replace and install new 138kV and 69kV circuit breakers and capacitor banks to improve the electrical configuration. The Project is needed to improve the resilience and reliability of the area power system, increase operational flexibility, and to meet the requirements of Honda Development and Manufacturing of America (“HDMA”) facilities.

In accordance with OAC Rule 4906-06-05, this Project falls within the Ohio Power Siting Board (“OPSB”) requirements for a Letter of Notification (“LON”) application.

AES Ohio anticipates that construction of the Project will begin March 15, 2024, pending approval of this LON. The anticipated in-service date for the Project is January 1, 2025.

Respectfully submitted,

ss:/ *Randall V. Griffin*
