

**BEFORE
THE OHIO POWER SITING BOARD**

In the Matter of the Letter of Notification)
Nottingham Solar LLC for the 138 kV Gen-)
Tie Transmission Line Project, Athens) Case No. No 22-1030-EL-BLN
Township, Harrison County, Ohio)

**NOTTINGHAM SOLAR LLC GEN-TIE TRANSMISSION PROJECT
SUPPLEMENT TO LETTER OF NOTIFICATION**

On December 1, 2022, the Ohio Power Siting Board Staff issued its Staff Report, which contains the six conditions listed below:

- (1) The certificate authority provided in this case shall not exempt the facility from any other applicable and lawful local, state, or federal rules or regulations nor be used to affect the exercise of discretion of any other local, state, or federal permitting or licensing authority with regard to areas subject to their supervision or control.
- (2) Prior to the commencement of construction activities in areas that require permits or authorizations by federal, state, or local laws and regulations, the Applicant shall obtain and comply with such permits or authorizations. The Applicant shall provide copies of permits and authorizations, including all supporting documentation, on the case docket prior to commencement of construction. Any permit violation received by the Applicant from the permitting agency shall be provided on the case docket within seven days of receipt.
- (3) Prior to the commencement of construction, the Applicant shall obtain a coordination letter from the ODNR regarding impacts to state listed species and/or their suitable habitat and shall coordinate with the ODNR and with Staff regarding compliance with the letter.
- (4) The Applicant shall adhere to seasonal cutting dates of October 1 through March 31 for removal of any trees greater than or equal to three inches in diameter unless coordination efforts with the ODNR and the USFWS allows a different course of action. If coordination with these agencies allows clearing between April 1 and September 30, the Applicant shall docket proof of completed coordination on the case docket prior to clearing trees.

- (5) At least 30 days prior to the commencement of construction, the Applicant shall file in this docket a copy of the FAA Determination of No Hazard letters and/or the FAA temporary construction permit, where applicable, for the electric transmission line towers, substation lightning masts, and any construction cranes.
- (6) If the Applicant determines that mine voids are present and the subsurface may not support the proposed structures, the Applicant shall develop a subsidence mitigation plan in coordination with ODNR. The mitigation plan shall consider the potential risk for induced subsidence.

By this submission, Nottingham Solar LLC (“Nottingham”) incorporates the above conditions as a supplement to its Letter of Notification filed November 9, 2022, and requests that this supplement be considered part of Nottingham’s application.

Respectfully submitted on behalf of,
NOTTINGHAM SOLAR LLC
