RECEIVED-DOCKETING DIV  
2022 DEC 19 AM 9:38

Hi, there is a group in Logan County trying to tell private residents that they cannot put industrial solar on their own properties. And they're trying to make it law, just because a neighbor or two don't want to look at modern technology. The way I feel, if YOU don't want solar on your property, then don't install it. But NO ONE has a right to tell (or make a law for) anyone what they can or cannot do on their property for renewable energy or legal profit.

Thank you for hearing my view in this matter.

Steve Hudson
