<b>Enter your question or comment</b>	I am requesting that this project does not pass in front of 15620 Justamere Rd. just west of Lane Rd. My wife is a two time cancer survivor with a very compromised immune system. I also am a amateur radio operator with 3 towers running parallel to the proposed power lines supporting a 200 foot long antenna. I also have 4 vertical antennas and a horizontal HF beam. This system is very sensitive to electrical interference and static electricity. It is used for world wide communications that would become difficult to impossible if high tensions line were in the same proximity. The proposed path of the lines to turn south across Justamere Rd west of my location, may allow my wifes health and my radio system to coexist with your project without adverse effects. Respectfully submitted.
