DOCKETING CASE #: 23-0023-EL-SSO

SUBJECT: Ohio Power Company - Electric Security Plan

Please docket the associated customer comment and/or attached in the case number referenced above under "Public Comments". This information was received by the Consumer Services Division through alternate channels and is being forwarded to be filed formally. This information is not the opinion of Staff and should not be viewed as such.

The customer's comments are below.

I want to comment on AEP's Electric Security Plan, which they are about to file. They want to keep raising their rates, but someone like me, who has rooftop solar panels, they limit how much power I can send back to them. They call it the 150% limit. If I send them too much power, they don't have to buy mine. This whole process is RIGGED for AEP. I have to keep paying them more if I use their power, but if I send them too much, they don't have to buy mine. This is total BS, limiting my generation, but keep charging me more and more for their projects. I paid for my project, how come I can't use it to my advantage????
