# Exhibit B

P.U.C.O. No. 5

**BASIC LOCAL EXCHANGE SERVICE TARIFF**

---

**ESTABLISHING AND FURNISHING OF SERVICE**

---

A. APPLICATION FOR SERVICE

Applications for service become contracts upon the establishment of service. Applicants for service may be required to pay in advance at the time application is made, all charges accruing for the first billing period for exchange service and equipment, and the service connection charges and installation charges applicable. Such contracts are subject to these General Rules and Regulations, the General Exchange Service Tariffs and the Local Exchange Service Tariffs for the particular exchange form which service is to be furnished. Any change in rates, rules and regulations shall act as a modification of the contract.

B. PAYMENT FOR SERVICE

A subscriber's bill shall not be due earlier than fourteen (14) days from the date of the postmark on the bill. If the bill is not paid by the due date, it then becomes past due. The subscriber is responsible for all charges for telephone service rendered at this telephone or charged to his Toll Credit card, both exchange and toll, including charges for toll messages on which the charges have been reversed. Failure to receive a bill does not relieve the customer of his liability.

C. MAINTENANCE AND REPAIRS

All expense of maintenance and repair of telephone distribution facilities, up to and including the protector (demarcation point) is the responsibility of the Telephone Company.

D. CHARGES APPLICABLE FOR FACILITY EXTENSION

When an applicant requests new service or upgraded service where construction of line facilities is required, the Telephone Company will cover the construction costs up to \$500.00. Any Construction charges over \$500.00 shall be recovered from the applicant. Construction charges for multicircuit customers will be on an ICB basis.
