**OBJECTIONS TO STAFF REPORT
OF THE OHIO ENERGY GROUP**

I. INTRODUCTION

Pursuant to R.C. 4909.19 and Ohio Adm. Code 4901:1-19-07(F), the Ohio Energy Group (“OEG”) submits its Objections to the Staff Report filed on December 21, 2022, in the above-captioned proceedings.

II. OBJECTIONS

1. Class Allocation

OEG objects to Staff’s proposal cost-of-service method.¹ Staff has not established that its proposed adjustments to Duke Energy Ohio Inc.’s (“Company”) cost-of-service method are appropriate.

¹ Staff Report, pp. 28-32.

2. Non-Residential Rate Design

OEG objects to Staff's proposed rate design for the GS-L, FT-L, IT and IS rate classes. Staff has not established that its proposed rate design appropriately recovers customer-related and demand-related costs through fixed charges; and does not over-recover costs through volumetric charges.²

3. Gas Surcredit Rider (GSR)

Staff recommends eliminating Rider GSR stating that the PUCO and OCC assessments paid today by the Company are distribution expenses to be paid by all distribution customers whether the customers receive their gas supply from a Competitive Retail Natural Gas Service.³ OEG objects to the elimination of the GSR to the extent it would result in shopping customers paying for any costs attributable to commodity sales service for those customers that do not purchase that service from the Company.

Respectfully submitted,
