RECEIVED-DOCKETING DIV  
2023 JAN 24 PM 4:54

To whom it will concern:

PUCO

I've made public comment a few times before, and I hope this will be the last.

OPSB has denied Birch Solar/Light Source BP their permit to develop solar power generation facilities in Allen/Auglaize Counties in NW Ohio.

Your board cited the primary reason for denying this permit that the proposed project does not "serve the public interest, convenience, and necessity." Since the issuing of your ruling, nothing at all in that regard has changed. There are considerably less public comments than before, but that in no way indicates that residents are now in favor of this project. Birch/LSBP will undoubtedly try to push that angle in their appeal(s).

Thank you for denying their permit, and please do not relent on your initial ruling.

Respectfully,

-Travis R. Unterbrink
