PUCO

When I signed up for the solar project, the setback was 50' from the road to allow for screening. That was the only setback. As far as the setback for adjacent properties, I feel it should be none because my wife is allergic to crop dust and farmers are not mandated setbacks. I feel the 300' setback is absurd...we will have 300' of noxious weeds growing and the valuable land will be wasted.

Thanks for the opportunity to voice my opinion. Sincerely, Richard Blevins Kim Blevins
