Enter your question or comment	22-0549-EL-BGN I am messaging the Ohio Power Siting Board this morning to express my support for the Oak Run Solar Project. The fact that there are property owners who have consented and agreed to use their land to produce solar energy would be the sole reason why we should respect these residents who are looking for whatever is best for their land and families. I live a few blocks from the London City Schools and I know it would benefit from the economic impact from the project on a yearly basis. Please show consider supporting a long-term investment to our students and support Oak Run!
