Subject: 21-0669-EL-BGN South Branch Solar

Good evening, I am writing again to voice my family's opposition in regard to the South Branch Solar development in Washington Township, Hancock County. I have been reading all of my neighbors' and community members' letters and I am so proud of the community that has raised me. I have lived in this community my entire life, buying my late Grandfather's home in 2018. Our dream home; perfect location, close to everything we are involved in but yet far enough out of town to get the beautiful country landscape. This project will destroy everything I have worked so hard for. I am very involved and give back as much of my time to this wonderful community. I volunteer at the Fire Dept in the village, work part time for the village and help with many fundraisers throughout the community. South Branch Solar and Leeward energy have done nothing for this town. All their time and effort is spent winning over the people of Findlay, which is obviously the only vote they will ever get in support of such a destructive waste of farm ground.

I was working out in my new shop tonight looking out the overhead door at the field that is proposed to be full of glass and a bald eagle flew from the north to the south. This view is everything my grandfather, father, and myself have dreamed about. Please do not let this company destroy that. My two year old does not deserve to grow up surrounded by this experiment. It is very obvious that there is an overwhelming majority of residents against this project. Please hear our words.

Respectfully,
Travis Bohn and Family
