**Operation and
Governance Plan**

Natural Gas

Greene County

**Natural Gas Aggregation
Program
Plan of Operation and
Governance**

Approved February 16, 2023

Purpose

The goal of this “opt-out” governmental aggregation program is to facilitate additional choices for the supply of natural gas for eligible residential and commercial consumers, pursuant to Ohio Revised Code section 4929.26.

The Greene County Natural Gas Aggregation Program seeks to aggregate the retail natural gas loads of consumers located in the County to obtain the lowest price for the supply of natural gas. Participation in the County of Greene aggregation program is limited to individuals who are not already under contract with an alternative CRNGS.

This program is voluntary. Every eligible customer has the opportunity to decline to be a member of the aggregation program and to remain with Columbia Gas of Ohio (COH) and CenterPoint Energy or to enter into a natural supply contract with any other competitive retail natural gas services provider (CRNGS).

Process

On November 8, 2022, a majority of voters in Village of Clifton, Village of Bowersville and unincorporated areas of Greene County, Ohio approved the development of a form of natural gas government aggregation, known as opt-out aggregation. The County and Communities shall follow the process of governmental aggregation as set out in Ohio Revised Code section 4929.26 and the rules set out by the Public Utilities Commission of Ohio (PUCO).

These communities decided to utilize their aggregation jointly through Greene County, Ohio as permitted under Section 4929.26 of the Ohio Revised Code. A legislative authority or board may automatically aggregate its residents after passage of an opt-out ordinance, approval by a majority of the voters and adoption of a Plan of Operation. The County has accomplished all of these requirements. The natural gas aggregation program may eventually include additional communities provided they pass a governmental aggregation referendum by the majority of voters in that community, decide to join the Greene County Ohio “opt-out” governmental aggregation and obtain approval from the Board of County Commissioners.

The process will entail selection of a Competitive Retail Natural Gas Supplier (CRNGS), mailing opt-out notices to eligible customers, generating a list of participants who did not opt out, then transferring the participants to the chosen CRNGS.

County of Greene Aggregation Program

The purpose of the aggregation program is to reduce the amount consumers pay for natural gas. The County will not buy and resell the natural gas for the participants of the

program. Instead, The County of Greene and its energy consultant will competitively bid and negotiate a contract with a CRNGS to provide natural gas to the members of the aggregation program.

The County of Greene will obtain the list of customers within its boundaries from Columbia Gas of Ohio (COH) and CenterPoint Energy, either by zip code or by method provided by the utility. The County will have its CRNGS cleanse the data to ensure that it does not contain customers with alternate suppliers, PIPP customers, and any other excludable consumers, and only those who live within the jurisdictional boundary. The County will then have its CRNGS send an opt-out notice to each eligible customer which discloses the offered price for natural gas along with any applicable contract terms. The opt-out notice will clearly inform potential customers that they may opt-out of the program during the 21-day period following the mailing of the notification, along with instructions on how to opt-out. Customers who opt-out of the County's aggregation program during this initial notification period will remain with Columbia Gas of Ohio (COH) and CenterPoint Energy unless and until the customer chooses an alternative CRNGS or chooses to opt-in to the aggregation program at a later date.

Operation

All necessary technical analysis, competitive procurement of services, regulatory approvals, accounting and fiscal management, contract maintenance, communications, program coordination and administrative support will be professionally provided by existing staff and an energy consultant, as well as the chosen CRNGS.

Funding

The primary expenses associated with operating this program are printing and mailing cost of the opt-out notices, and fees for an energy consultant. Instead of paying for these costs upfront, it shall be The County's goal to have the chosen CRNGS absorb these fees into their offered rates of the program participants.

Notification of Customers

All eligible customers in The County of Greene will receive opt-out information in the mail. The County of Greene will adhere to all eligibility requirements of R.C. 4929.26. Essentially, eligible customers cannot be under contract to buy natural gas from an alternate CRNGS or a mercantile customer.

The opt-out notice shall clearly inform customers of the offered rate, and that they have the right to opt-out of The County's aggregation program within 21 days after the mailing of the notice without paying a switching fee. The opt-out notice will fully describe how

to opt-out. After the completion of the opt-out process, the residents who did not opt out will be included in The County's aggregation program.

Customer opt-out

Customers may opt-out of The County of Greene aggregation program at no charge within the 21-day period following the mailing of the notice containing the rates and terms of the aggregation program. Customers who return the required opt-out notice will remain customers of Columbia Gas of Ohio (COH) and CenterPoint Energy. The County will offer the 21-day period during which customers can opt-out of the aggregation program without charge at least every two years pursuant to state law.

Customer opt-in

The County of Greene intends on having its supplier allow customers who move into or within The County of Greene to opt into The County's aggregation program by calling and voluntarily signing up with the supplier. The County will strive to provide these new customers with a rate similar to those who had been in the pool from the beginning. Additionally, the County's supplier may obtain a refreshed customer list from Columbia Gas of Ohio (COH) and CenterPoint Energy approximately every six months. The County's supplier may then send aggregation information to those eligible customers identified on the refresher list. Whether this information is in opt-in or opt-out format will depend on the negotiated language of the supplier contract. If interim opt outs are to take place; a 21-day opt-out will occur in the manner described above.

Joining the Program at a later date

Residents of the County who initially chose to opt-out of the Program, for whatever reason, and wish to enroll at a later date, will be treated the same as a new resident. That is they will not automatically become part of the existing program, but will be given an opportunity to enroll. However, the County cannot guarantee that rates, terms and conditions to consumers enrolling in the Aggregation after the initial 21-day opt-out period, will match those of the initial enrollee.

Disputes

The procedure for handling complaints will be in accordance with the rules set by the PUCO, and handled by the retail natural gas supplier. Dispute resolution provisions will also be in accordance with PUCO regulations. The opt-out package will contain the telephone numbers and websites for the PUCO and the Ohio Consumers Counsel, as well as the supplier's toll-free number.

The County of Greene supplier will maintain this toll-free number for all customer related questions and complaints. The County shall require that the personnel assigned to answer these calls be trained and provided the knowledge specific to The County's program.

Termination of natural gas supply program

The natural gas supply program may be terminated at the expiration of the supply contract without any extension, renewal or subsequent supply contract being negotiated.

In either event, the aggregation pool customers will return to Columbia Gas of Ohio (COH) and CenterPoint Energy and until they switch to an alternate supplier. Each individual customer receiving natural gas supply service under The County of Greene aggregation program will receive notification of the termination of the program before termination.

Rates

The Department of Public Utilities shall receive proposals from CRNGS using a competitive selection process. Bidders will be requested to provide a fixed price, floating price, a percent off rate, or a combination of the above. If consumers will have the option of choosing between fixed and floating prices, the opt-out package will contain ample and easy to understand information to aid the consumer in deciding which option best suits their natural gas needs. The County will decide which pricing structure(s), to offer based on the bids received, and an analysis of the current and projected market status as well as the bids received.

Billing and Payment

The County of Greene will continue to have Columbia Gas of Ohio (COH) and CenterPoint Energy bill customers monthly, using an itemized format approved by the PUCO. The County will not become involved in any payment delinquency issues and thus will not require any type of consumer credit or deposit. If The County's supplier wishes to pursue payment delinquency issues, details of the supplier's credit and deposit policies will be included in the opt-out package.

Columbia Gas of Ohio (COH) and CenterPoint Energy will continue to deliver the natural gas purchased on the County's aggregation program through its natural gas distribution system. Participants with questions or concerns regarding service delivery or safety, such as a natural gas outage or gas odor should continue to contact Columbia Gas of Ohio (COH) and CenterPoint Energy. Meter readings and other billing questions should also continue to be directed to Columbia Gas of Ohio (COH) and CenterPoint Energy.

Questions or concerns regarding the aggregation program should be directed to the CRNGS or the County of Greene.

Liability

The County shall not be liable to Members in the Aggregation Group for any claims whatsoever arising out of the aggregation program or the provision of aggregation services by the County or the Provider. Aggregation Group members shall assert any such claims solely against the Provider pursuant to the Power Supply Agreement, under which such participants are express third-party beneficiaries.

Copies of Plan

Copies of this plan are available from the County of Greene free of charge. Call The County at 937-562-5006, for a copy or for more information.

Consumer Right to Contact PUCO

Any natural gas customer, including any participant in The County of Greene Natural Gas Aggregation Program, may contact the Public Utilities Commission of Ohio (PUCO) for information, or make a complaint against the Program, the Provider, or Columbia Gas of Ohio (COH) and CenterPoint Energy. The PUCO may be reached toll free at 1-800-686-7826. The PUCO may be reached at 1-800-686-1570 for all TDD/TYY calls. The Ohio Consumers' Counsel may be reached at 1-877-742-5622.

Experience

Natural Gas

Experience

Greene County officials are experienced in negotiating and providing for common services for the County. However, due to the complexity of Governmental Aggregation, the County has selected Palmer Energy Company, to assist them in designing, implementing and maintaining the Program.

Greene County has been an active member in the natural gas and electric energy programs of the County Commissioners Association Service Corporation (CCAOSC). The CCAOSC Energy Programs were designed specifically to help counties save money on their natural gas and electric bills by utilizing the strength of group buying. By grouping together, counties can leverage their buying power when shopping the market, thus securing the best deals possible. The independent energy professionals of Palmer Energy Company, on behalf of the CCAOSC, obtained the best price for natural gas from various reputable suppliers through the RFP process

Palmer Energy Company is a Toledo based energy consulting firm founded in 1980. Palmer Energy was a natural gas industry pioneer by working on their customers' behalf as an external consultant. Purchased by Mark Frye in 1994, Palmer Energy has become a leader in unbiased energy management and consulting. While its evolution continues alongside the energy industry, Palmer Energy Company is dedicated to operating as an integral member of a client's energy management team.

Palmer Energy is also the energy consultant for The Northwest Ohio Aggregation Coalition (NOAC). NOAC is a coalition of communities in Lucas and northern Wood Counties providing governmental aggregation services for electric and natural gas customers within the Cities of Maumee, Northwood, Oregon, Perrysburg, Rossford, Sylvania, Toledo and Waterville, the Villages of Delta, Holland, Ottawa Hills and Walbridge, the Wood County Townships of Lake and Perrysburg, and all the unincorporated township areas of Lucas County (through the Board of County Commissioners, Lucas County, Ohio). Mark Frye, President of Palmer Energy, is NOAC's designated consultant and has testified on behalf of NOAC in several matters before the Public Utilities Commission of Ohio.

Palmer Energy Company will:

- Assist the day to day administration of program (problem resolution, press releases, PUCO compliance, supplier liaison, contract review, etc.)
- Design and issue the Request for Proposal, analyze supplier responses and provide recommendations for the supply agreement.
- Review customer data provided by the utility that would serve as the basis for an opt-out notice. Provide customer service support for consumers in the County to call for information during the 21-day enrollment and opt out period for the County's Aggregation Program.
- Respond to customer inquiries, billing questions and/or complaints. While the billing of customers for the retail generation supply will be provided through the natural gas utility Columbia Gas of Ohio (COH) and CenterPoint Energy, and the billing process will be coordinated with COH and CenterPoint Energy by the selected supplier, for the

Aggregation Group, Palmer Energy will offer assistance as needed on behalf of the County.

- Write and prepare reports on a quarterly/annual basis to the County, PUCO, PUCO's Market Monitoring division, and the Ohio Consumers' Counsel.
- Palmer Energy is well versed in the rules adopted by the PUCO, and is thus in a position to ensure compliance with all applicable provisions of Section 4928.10 of the Revised Code, and the rules adopted by the Commission pursuant thereto.
