**SUBJECT:** Duke Energy Ohio - Protest Rate Case

Customer comments: I was wondering about how long I'm expected to invest. I also would like to know what kind of return on investment I can expect and when I should expect that. Additionally I think it's only reasonable to give the general public regular updates on what the investment is being used on. It would be really helpful to see know what kind of goals have been set for all the extra money being collected. Thank you for your help!

I do not want to pay for the riders that your organization approved. I paid more in rider charges than I did for actual electricity. The people who made this decision must think \$200 a month isn't a lot of money. You are very lucky to feel that way. \$200 is more than a months worth of groceries for me. There is no way the average consumer wants this. Will you please stop making us invest in the electric company. They already have an obscene amount of wealth, it's disgusting.
