Aqua Ohio, Inc. and Aqua Ohio) 23-0175-WS-AAC
Wastewater, Inc. to Amend Certificate of)
Public Convenience and Necessity)

In the Matter of the Joint Application of)
Aqua Ohio, Inc. and Aqua Ohio) 23-0176-WS-ATA
Wastewater, Inc. to Amend Tariff)

APPLICATION

In accordance with R.C. 4933.25, R.C. 4905.30, and Ohio Adm. Code 4901:1-15-07, Aqua Ohio, Inc. (“Aqua”) and Aqua Ohio Wastewater, Inc. (“AWI”) (collectively, the “Aqua Entities”) hereby request that the Commission approve (1) the amendment of Aqua’s Certificate of Public Convenience and Necessity No. 12 and AWI’s Certificate of Public Convenience and Necessity No. 1 to expand the territory served by the Aqua Entities’ Franklin Division, Lake Darby Service Areas, and (3) the revision of Aqua’s Tariff P.U.C.O. No. 2 (the “Aqua Tariff”) and the revision of AWI’s Tariff P.U.C.O No. 1 (the “AWI Tariff”) (collectively with the Aqua Tariff, the “Tariffs”).

For the reasons identified herein, the Aqua Entities believe that it is not necessary for the Commission to hold a public hearing under R.C. 4933.25. The Aqua Entities also request a waiver of the public and legal notice requirements set forth in Ohio Adm. Code 4901:1-15-04(C), Ohio Adm. Code 4901:1-15-05(D)(21), and Ohio Adm. Code 4901:1-15-07(B). In support of this Application, the Aqua Entities state as follows:

1. Aqua is a “public utility” and a “waterworks company” as defined in R.C. 4905.02(A) and 4905.03(G). As such, Aqua is subject to the Commission’s jurisdiction in accordance with R.C. 4905.04, 4905.05, and 4905.06.

2. AWI is a “public utility” and a “sewage disposal system company” as defined in R.C. 4905.02(A) and 4905.03(M). As such, AWI is subject to the Commission’s jurisdiction in accordance with R.C. 4905.04, 4905.05, and 4905.06.

3. The Aqua Entities are currently authorized to provide waterworks and sewage disposal service to customers in various counties in Ohio in accordance with several existing certificates of public convenience and necessity. Aqua provides waterworks service to portions of Franklin County, Ohio, including subdivisions in Lake Darby, through its Certificate of Public Convenience and Necessity No. 12, which was issued pursuant to Case Nos. 12-0720-WS-CAN, 12-0721-WS-ATC, and 12-0722-WS-ATA and amended most recently pursuant to Case No. 20-1198-WS-AAC. AWI provides sewage disposal service to portions of Franklin County, Ohio, including subdivisions in Lake Darby, through its Certificate of Public Convenience and Necessity No. 1, which was issued pursuant to Case Nos. 16-1848-ST-ACE and 16-1849-ST-ATC, and amended most recently pursuant to Case No. 20-1199-WS-AAC.

4. The Aqua Entities currently serve customers, including customers in Franklin County, Ohio, under the terms and conditions of their respective Tariffs. The Tariffs includes a map of the subdivisions in Lake Darby in Franklin County, Ohio, in which the Aqua Entities are authorized to provide service, which is designated Franklin Division Lake Darby Service Area. *See*, Aqua P.U.C.O. Tariff No. 2, Section 5, Original Sheet No. 10 and AWI P.U.C.O. Tariff No. 1, Section 5, Original Sheet No. 3.

5. Girl Scouts of Ohio’s Heartland (“GSOH”) owns a property in Lake Darby adjacent to the Aqua Entities’ service area and is seeking to secure water and wastewater

service for improvement of the GSOH's Camp Ken Jockey. A copy of GSOH's request for service from the Aqua Entities is attached hereto as **Exhibit A**.

**APPLICATION TO AMEND CERTIFICATES OF
PUBLIC CONVENIENCE AND NECESSITY**

6. As required by Ohio Adm. Code 4901:1-15-5(D)(18) and (D)(19), there is a present and continuing need by GSOH in the Aqua Entities' Lake Darby Service Area for reliable and efficient water and wastewater service. There is no current service, and no existing agency, publicly or privately owned or operated that has to date been able to economically and efficiently provide the facilities and services needed by GSOH which is the subject of this Application.

7. In accordance with R.C. 4933.25 and Ohio Adm. Code 4901:1-15-07(A), AWI requests the amendment of its Certificate of Public Convenience and Necessity No. 1 and Aqua requests the amendment of its Certificate of Public Convenience and Necessity No. 12 (collectively, the "Certificates"), which authorize service to portions of Franklin County, Ohio, including Lake Darby, to add the land owned by GSOH.

8. In accordance with Ohio Adm. Code 4901:1-15-07(B)(1), the Aqua Entities state that no additional construction (excluding main extensions) will be necessary to serve the amended service territory.

9. Ohio Adm. Code 4901:1-15-07(B) also requires the applicant to update information required by Ohio Adm. Code 4901:1-15-05, "[i]f the event requiring the certificate to be amended results in a change in the information * * * ." The Aqua Entities state that the only information that changed as a result of the Certificates' amendment are addressed below.

10. Ohio Adm. Code 4901:1-15-05(D)(6) requires a metes and bounds description to be filed with the Application describing the area in which service is to be rendered pursuant to the authority sought. Ohio Adm. Code 4901:1-15-05(D)(6) also requires that the Application include a map based on upon the metes and bounds description. **Exhibit B** to the Application is the prepared metes and bounds description of the area in which service is to be rendered in accordance with the authority sought. The Aqua Entities have also included proposed revised tariff pages containing the map of the service area as **Exhibit C** (Aqua) and **Exhibit D** (AWI). Both the metes and bounds description and the maps correctly reflect the service area served by the Aqua Entities and the territory requested to be added by this Application.

11. Ohio Adm. Code 4901:1-15-05(D)(5) requires a tariff to be filed with the Application setting forth all of applicants proposed rates, charges, and rules and regulations. Regarding rates, upon approval of the Application, the Aqua Entities will provide waterworks and wastewater service in accordance with its currently approved rates and schedules in its Tariffs for its customers in Franklin County, Ohio.

APPLICATION FOR APPROVAL OF TARIFF

12. Aqua also requests that the Commission approve the Aqua Entities' new Tariffs, in accordance with R.C. 4905.30, for provision of service to the Village. The proposed Tariffs are attached hereto as Exhibit C and D.

13. The Tariffs meets all minimum contents of a waterworks tariff and sewage disposal system company tariff as delineated by Ohio Adm. Code 4901:1-15-15.

14. Upon approval of the Application, the Aqua Entities will provide waterworks and wastewater service to GSOH's Camp Ken Jockey in accordance with its currently approved rates and schedules in its Tariffs for its customers in Franklin County, Ohio.

15. The only revision to the Tariffs are to the map showing the boundaries of the Franklin Division, Lake Darby Service Area. Redline and clean copies of those Tariff pages are attached hereto.

REQUEST FOR WAIVER OF NOTICE AND HEARING

16. Aqua requests that the Commission approve the Application without requiring the provision of public or legal notice and without requiring any hearing that may be contemplated under any applicable statute or Commission rule, including Ohio Adm. Code 4901:1-15-04 and Ohio Adm. Code 4901:1-15-05.

17. The Application seeks to amend the Certificates and Tariffs to expand the existing territory in Franklin County, Ohio to which the Aqua Entities already provide services. In addition, the proposed amendments to the Certificates do not seek to change any rate, charge, requirement, or condition to the Certificates and Tariffs do not seek to change any rate, charge, requirement, or condition for the service being provided to existing customers in Franklin County, Ohio. For these reasons, the Aqua Entities believe it is not necessary for the Commission to hold a public hearing under R.C. 4933.25.

18. Granting the requested waiver of legal or public notice and hearings under Ohio Adm. Code 4901:1-15-04 and Ohio Adm. Code 4901:1-15-05 will minimize the cost and expense of preparing and processing this Application and will not hinder the Commission's review of the Application. In similar circumstances, the Commission has waived the requirement of publishing notice and holding a hearing. *See, In the Matter of the*

Application of Aqua Ohio, Inc. to Purchase the Assets and Properties of the City of Campbell and to Amend the Certificate of Public Convenience and Necessity No. 35, Case Nos. 19-1610-WS-UNC and 19-1611-WS-AAC, Finding & Order (Dec. 18, 2019).

19. For the reasons identified herein, Aqua also believes that a hearing is not necessary under R.C. 4933.25.

20. The Aqua Entities also request a waiver of the public and legal notice requirements set forth in Ohio Adm. Code 4901:1-15-04(C), Ohio Adm. Code 4901:1-15-05(D)(21), and Ohio Adm. Code 4901:1-15-07(B). Granting the required waiver of public and legal notice requirements under the Commission's rules will minimize the cost and expense of preparing and processing this Application. Conversely, the costs of notice by publication would provide no apparent benefit to the Aqua Entities' existing customers in Franklin County, Ohio. Because only GSOH will be directly affected by the Application, the Aqua Entities propose that written notice be provided only to GSOH, if deemed necessary by the Commission.

21. The following are provided in support of the Application, as detailed above:

Exhibit A: Letter requesting service by GSOH

Exhibit B: Metes and Bounds Description, same for both Aqua and AWI

Exhibit C: Proposed Tariff Pages with Map of Service Area, Aqua

Exhibit D: Proposed Tariff Pages with Map of Service Area, AWI

WHEREFORE, Aqua and AWI respectfully request that the Commission approve this Application as submitted and grant all other necessary and proper relief.

To whom it may concern,

As you are aware, Girl Scouts of Ohio's Heartland is embarking on a capital improvements project that includes adding additional facilities to our Camp. Our property borders your current service area on the south, and we wish to tie into water service and sanitary service with AQUA. We have an anticipated connection date sometime in the Fall of 2023. We have released our Civil Engineer IBI on surveying and design services in order to complete this main line extension project. We appreciate all your time thus far in this process to help us understand the requirements and services available to the camp.
