3/13/2023

This comment is a public service announcement to all parties involved in Case Record 21-1231-EL-BGN Fountain Point Solar, and a request to the OPSB to change the Public Comment Document Record. Currently the record states that there are 404 public comments that have been submitted. That number is false and misleading. On July 25th 2022, I personally delivered to the OPSB Docketing Staff, 3 packets of documents containing signed letters from citizens around the county that oppose the Fountain Point Solar Project. The contents of those packets are as follows.

Packet 1- 276 letters from Logan County residents

Packet 2- 201 letters from Bokescreek Township residents

Packet 3- 251 Letters from Rushcreek Township residents

A total of 728 individual letters were submitted, in person, to the OPSB. This was addressed many times during the Public Hearing held on December 14th 2022, however it is imperative that the record reflects the actual number of letters submitted. I am formally requesting the OPSB Docketing staff change the number of public comments from 404 to 1129.

Respectfully,

Paul Schaller

West Mansfield, Ohio
