The improvements that this amount of money can pay for are a dream come true for families with children in our local school system. The major influx of revenue to schools that this project would bring is too important to pass up. I'd like to respectfully urge the board to approve this project for the real benefits it will bring to everyone in the area, especially our youngest residents, who can't speak for themselves on the issue. It's their future in our hands – let's set them up for success.
