Enter your question or comment	I believe we should always support a project that is in the best interest of our children. If this project gets approved those annual payments of millions of dollars to our school districts will be helpful to ensure quality education is top priority in Madison County. No one is entitled to a view and solar energy is a safe and efficient way to meet our energy demands. Regardless, I would not want to decline an opportunity to help the landowners obtain predictable income that will incentivize them to continue to invest in Madison County. 22-0549-EL-BGN
