As you can clearly see by the above chart, 90% more Logan County residents oppose than support the project and the majority in opposition are within the footprint of the project and are Benjamin Logan School District families. Several elected officials have gone on record in opposition to the Fountain Point project including Logan County Land Trust, LIUNA, and the North American Platform Against Wind Power.

The residents from across Logan County have spoken. Fountain Point Solar Project does not satisfy the public need, convenience, and necessity. Please listen to the majority of Logan County residents and deny this project.
