Re: *American Transmission Systems, Incorporated's Letter of Notification
Application for a Construction Certificate*
Holloway-Knox 138 kV Transmission Line Rebuild Project –
Holloway Substation to Nottingham Substation Segment
OPSB Case No. 23-0141-EL-BLN

Dear Ms. Troupe:

Please find attached American Transmission Systems, Incorporated's ("ATSI's") response to Staff's first data request dated April 11, 2023, as well as a proposed condition for the Staff Report of Investigation to be filed in this case.

Should the Ohio Power Siting Board desire further information or discussion of this submittal, please contact me at 614-227-1989.

Respectfully submitted,

Devan K. Flahive (0097457)
Attorney for American Transmission Systems, Incorporated

cc: Anne M. Rericha, Esq. (arericha@firstenergycorp.com)

**BEFORE
THE OHIO POWER SITING BOARD**

In the Matter of the Letter of Notification)
Application by American Transmission) Case No. 23-0141-EL-BLN
Systems, Incorporated for a Construction)
Certificate for the Holloway-Knox 138 kV)
Transmission Line Rebuild Project –
Holloway Substation to Nottingham
Substation Segment

ATSI'S RESPONSE TO FIRST DATA REQUEST FROM OPSB STAFF

Request Dated April 11, 2023:

1) Indicate how any costs, associated with this project, will be captured by any filing with any regulatory agency (i.e., how will these costs be “rate-based”, PJM OATT Attachment).

RESPONSE: Transmission costs associated with this Project will be integrated into ATSI's FERC-approved transmission formula rates and are inclusive of engineering, materials, and construction costs plus applicable overhead, for which ATSI, as the Transmission Owner, is legally responsible. Specifically, costs will be captured through FERC formula rates for the ATSI Transmission Zone, Attachment H-21 in the PJM OATT.

PROPOSED CONDITION FOR STAFF REPORT OF INVESTIGATION:

Staff has recommended certain recurring certificate conditions for prior segments of the Knox-Nottingham Transmission Line Rebuild Project. Without either waiving any objection to or admitting the lawfulness of such condition(s), ATSI proposes language for Staff's consideration in lieu of restating the second condition that was included in Staff Reports of Investigation relating to prior segments of the Knox-Nottingham Transmission Line Rebuild Project:

- Prior to the commencement of construction activities in areas that require permits or authorizations by federal or state laws and regulations that do not conflict with or otherwise inhibit the certificate authority granted in this case, the Applicant shall obtain and comply with such permits or authorizations. The Applicant shall docket copies of those permits or authorizations with material supporting documentation prior to commencement of construction.
