Public Utilities Commission of Ohio

Re: MPLX Request for Reconsideration - Case No. 22-0002

Dear PUCO,

This letter is submitted in response to the Public Utility Commission of Ohio's (PUCO) recent permit fee notice with respect to certain MPLX LP subsidiary entities. In my capacity as Pipeline Compliance Manager, I oversee pipeline compliance and reporting for MPLX LP, and certain of its subsidiaries, including Ohio Gathering Company, L.L.C., Jefferson Gas Gathering Company, LLC, and MarkWest Hydrocarbon, L.L.C.

Each year my team requests the throughput volume from our measurement team, which is then calculated and reported to PUCO on our Gas Pipeline Safety Report. Unfortunately, this year, every gas meter in OH was provided, including the inlet, outlet, plant, sales, and other meters, rather than simply the outlet volume, which would reflect to total throughput of our system. In providing data from all meters, the same molecules were accounted for numerous times and MPLX ultimately provided to PUCO a throughput volume total, roughly 6 times larger than the actual throughput volume.

MPLX is hereby requesting to amend all Throughput Reports submitted in calendar year 2022 be changed to the total outlet volume 178,368,469.02 mcf.

We apologize for this error in reporting and are happy to provide PUCO with any additional information necessary to correct this situation.

Please feel free to contact me with any questions.

Thanks,

A handwritten signature in black ink that reads 'Tony Minutillo'.
