Dear Public Utilities Commission of Ohio,

Dear Public Utilities Commission of Ohio,

Utility bills are skyrocketing. Ratepayers across Ohio are struggling to pay their bills, while utilities like AEP reap billions in profit. Please do not allow AEP to increase our distribution charges, when they can find those funds elsewhere.

Instead of using ratepayer money to pay for generators and other equipment AEP would own, ensure those assets for reliability in vulnerable neighborhoods would be community owned.

Do not approve deferral authority for cost recovery of the OVEC coal plants.

Do approve the energy efficiency programs which save us money, decrease burden on our electric grid, and reduce overall emissions.

Sincerely,

Carole Campbell Case No. 23-0023

Dear Public Utilities Commission of Ohio,

Housing finances are already strained for the average home owner and renter. Please use the resources available to minimize the impact of such a price increase. I have experienced in the past having to scrounge funds to turn back on electric service, and feeling in a never ending cycle of playing catch up. I couldn't imagine being back in this cycle among all the pricing pressures that exist today.

Dear Public Utilities Commission of Ohio,

Dear Public Utilities Commission of Ohio,

Utility bills are skyrocketing. Ratepayers across Ohio are struggling to pay their bills, while utilities like AEP reap billions in profit. Please do not allow AEP to increase our distribution charges, when they can find those funds elsewhere.

Instead of using ratepayer money to pay for generators and other equipment AEP would own, ensure those assets for reliability in vulnerable neighborhoods would be community owned.

Do not approve deferral authority for cost recovery of the OVEC coal plants.

Do approve the energy efficiency programs which save us money, decrease burden on our electric grid, and reduce overall emissions.

Sincerely,

Thomas Koop

Dear Public Utilities Commission of Ohio,

Large energy companies have used the post COVID inflation to pad their pockets. Enough!

Dear Public Utilities Commission of Ohio,

We need to hold inflation and corporate profiteering down for everyone's sake. Ohio needs to be an inspiration to people, not an embarrassment! I urge you to do the right thing for Ohioans!
