Dear Public Utilities Commission of Ohio,

Dear Public Utilities Commission of Ohio,

Utility bills are skyrocketing. Ratepayers across Ohio are struggling to pay their bills, while utilities like AEP reap billions in profit. Please do not allow AEP to increase our distribution charges, when they can find those funds elsewhere.

Instead of using ratepayer money to pay for generators and other equipment AEP would own, ensure those assets for reliability in vulnerable neighborhoods would be community owned.

Do not approve deferral authority for cost recovery of the OVEC coal plants.

Do approve the energy efficiency programs which save us money, decrease burden on our electric grid, and reduce overall emissions.

Sincerely,

Jean Hanson

Dear Public Utilities Commission of Ohio,

This is a ridiculously high rate increase. Which will negatively impact many families. Stop the rate hike. AEP is just being money hungry.

Dear Public Utilities Commission of Ohio,

With the rise in living costs and our employers refusing to give a livable raise, the middle class has suffered through Covid and continues to take the grunt of the problem while CEOs get 50% bonus increases because they are passing the buck onto us.

Dear Public Utilities Commission of Ohio,

Utility bills are skyrocketing. Ratepayers across Ohio are struggling to pay their bills, while utilities like AEP reap billions in profit. Please do not allow AEP to increase our distribution charges, when they can find those funds elsewhere.

Instead of using ratepayer money to pay for generators and other equipment AEP would own, ensure those assets for reliability in vulnerable neighborhoods would be community owned.

Do not approve deferral authority for cost recovery of the OVEC coal plants.

Do approve the energy efficiency programs which save us money, decrease burden on our electric grid, and reduce overall emissions.

Sincerely,

Jessica Holmes

Dear Public Utilities Commission of Ohio,

Consumers are really taking the brunt of too many rate hikes, especially in the use of energy! Is the organization called PUCO really the Private Utilities Commission? Does this organization serve the people or the corporations?
