Dayton Power and Light Company d/b/a AES Ohio Case No. 23-282-EL-RDR

Background

On April 14, 2023, The Dayton Power and Light Company (DP&L or Company) filed proposed tariffs to modify its Standard Offer Rates (SOR) Tariff. On April 28, 2023, the Company filed an updated application to include the results of the Percentage of Income Payment Plan (PIPP) auction.

The proposed SOR rates include the results of the most recent auction held on April 4, 2023 and approved by the Commission on April 5, 2023, in Case No. 17-957-EL-UNC. The proposed SOR rates also include the results of the April 17, 2023, PIPP auction, approved by the Commission on April 19, 2023 in Case No. 16-1031-EL-UNC.

In addition to the auction prices, the proposed rates include an alternative energy rate (AER) component, and a reconciliation component.

The Company requests that the proposed SOR rates become effective on June 1, 2023.

Staff Review and Recommendations

Staff has reviewed the updated proposed SOR tariff and workpapers filed on April 14, 2023, and updated on April 28, 2023, and finds that the proposed tariff appears to accurately reflect the appropriate auction results.

Staff reviewed supplier charges, consultant fees, and competitive bid revenues collected under the SOR as well as the Company's calculation of carrying charges and the gross revenue conversion factor. Staff found no exceptions during this audit and is satisfied that the reconciliation component is both consistent and in compliance with Commission's orders.

Staff conducted a preliminary review of the Company's proposed AER rate component. Based on its review, Staff does not oppose the rate becoming effective as proposed. However, it is Staff's expectation that the Company's AER component would be subject to a subsequent audit, performed at the direction of the Commission, which would inform the Commission's ultimate decision as to the reasonableness of the AER component in this proceeding.

Conclusion

The Staff recommends that the application filed April 14, 2023 and updated on April 28, 2023, be approved, and become effective June 1, 2023.
