Case No. 23-301-EL-SSO

MOTION TO INTERVENE OF CHARGEPOINT, INC.

Pursuant to Ohio Revised Code Section (“R.C.”) 4903.221, and Ohio Administrative Code (“OAC”) 4901-1-11, ChargePoint, Inc. (“ChargePoint”) moves for leave to intervene in this proceeding. The Public Utilities Commission of Ohio (“Commission”) should grant ChargePoint leave to intervene because ChargePoint has a real and substantial interest in this proceeding, and the Commission’s disposition of this proceeding may impair or impede ChargePoint’s ability to protect that interest.

Consistent with the requirements of R.C. 4903.221 and OAC 4901-1-11, ChargePoint is a real party in interest in this proceeding. ChargePoint submits that its interest is not represented by existing parties and thus its interests are not now represented. ChargePoint’s participation will not unduly delay this proceeding or prejudice any existing party. By granting ChargePoint’s motion to intervene, the Commission will permit ChargePoint to contribute to the just and expeditious resolution of the issues and concerns set forth in this proceeding.

Respectfully submitted on behalf of
CHARGEPOINT, INC.

Case No. 23-301-EL-SSO

MEMORANDUM IN SUPPORT

ChargePoint is a corporation organized under the laws of the State of Delaware, with a principal office at 254 East Hacienda Avenue, Campbell, California 95008. ChargePoint is a world leading electric vehicle (“EV”) charging network, providing scalable solutions for every charging scenario from home and multifamily to workplace, parking, hospitality, retail, and transport fleets of all types. ChargePoint’s cloud subscription platform and software-defined charging hardware is designed to enable businesses to support drivers, add the latest software features and expand fleet needs with minimal disruption to overall business. ChargePoint actively participates in regulatory policy engagements in jurisdictions across the country.

Under OAC 4901-1-11(A)(2), intervention may be permitted in this proceeding if that party has a real and substantial interest in this proceeding, and the person is so situated that the disposition of this proceeding may, as a practical matter, impair or impede his or her ability to protect that interest, unless the person's interest is adequately represented by existing parties. In deciding whether to permit intervention, the Commission, the legal director, the deputy legal director, or an attorney examiner shall consider:

- (1) The nature and extent of the prospective intervenor's interest.
- (2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case.
- (3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings.
- (4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues.
- (5) The extent to which the person's interest is represented by existing parties.

ChargePoint meets these criteria for intervention. First, ChargePoint has a significant interest in the pending application of Ohio Edison Company, The Cleveland Electric Illuminating Company and The Toledo Edison Company (collectively “FirstEnergy”). ChargePoint and its customers represent a significant portion of the established and growing electric vehicle infrastructure sector in Ohio.

ChargePoint’s position and market presence relates directly to the details of the applications. ChargePoint has a substantial and specific economic interest in the sustainable and scalable growth of the EV charging infrastructure in Ohio. ChargePoint’s business engagements in the state are directly affected by the discussion and resolution of the topics covered in this proceeding. Consistent with the requirements of R.C. 4903.221 and OAC. Rule 4901-1-11, the interests of ChargePoint in this proceeding cannot be adequately represented or protected by any other party.

ChargePoint’s intervention will not unduly prolong or delay this proceeding. ChargePoint fully intends to contribute to all forthcoming procedural activities as a responsible party.

Finally, ChargePoint’s intervention will significantly contribute to the full development of the record and its resolution. ChargePoint has deployed charging infrastructure throughout the United States, bringing to bear significant experience in developing scalable and sustainable EV

charging markets. ChargePoint's intervention provides a unique, practical perspective on how this proceeding may positively or adversely affect EV drivers, EV charging station site hosts, Ohio ratepayers, and the overall potential for growth in Ohio's EV market.

For these reasons, the ChargePoint respectfully requests that its Motion to Intervene be granted.

Respectfully submitted on behalf of
CHARGEPOINT, INC.
