Re: Case Number 21-1231-EL-BGN
Fountain Point Solar Project

To Whom It May Concern:

I reside in Perry Township, Logan County, Ohio. I am also in the Benjamin Logan School District.

According to the OPSB website, the number of utility scale solar projects approved in Ohio constitute 6,424.8 MW and cover an astonishing 65,610 acres of land. Pending projects, if approved, will add another 2,790 MW, and cover an additional 25,936 acres. That totals 91,546 acres of tillable land used for producing food.

Let's sit back and evaluate several of the approved projects and have solid proof that industrial solar is the best solution to the climate crisis you are convinced we are having. Fountain Point Solar Project does not satisfy the public need, convenience, and necessity. Please listen to the majority of Logan County residents and deny this project.

Thank you,
