RE: **Construction Notice
South Point – Portsmouth 138-kV Transmission Line Tie-In Project
Case No. 23-0576-EL-BNR**

Dear Neighbor,

You are receiving this letter because public records show you own property or live near a proposed transmission project.

AEP Ohio Transmission Company, Inc. (AEP Ohio Transco) representatives plan to build a three-pole 138-kilovolt (kV) transmission structure east of Highland Bend Road in Porter Township, Scioto County. The structure connects the new Cottrell North and South 138 kV Transmission Line Extensions Project (previously filed as Case No. 22-0950-EL-BLN) to an existing transmission line. The structure and new transmission lines provide power to Cottrell Substation and support additional transmission improvements in the area. These power grid upgrades enhance electric service reliability for customers by providing an additional power source to meet the current power demand. Benefits also include replacing existing, aging equipment with new equipment to address deteriorating infrastructure.

We have filed the project with the Ohio Power and Siting Board (OPSB) as the South Point – Portsmouth 138-kV Transmission Line Tie-In Project, Case No. 23-0576-EL-BNR.

If approved, construction begins fall 2023 and concludes early 2024.

Please see Page 3 of this document for key regulatory information associated with this project.

You may comment on this project by:

- Calling Maggie Beggs at (380) 205-5178
- Sending an email to mrbeggs@aep.com
- Sending your comments directly to the OPSB at 180 East Broad St., Columbus, Ohio, 43215-3793. You may also contact the OPSB at (866) 270-6772 or contactopsb@puc.state.oh.us. (Note: You can file petitions to intervene in the OPSB process to the siting board up to 10 days following the public notice announcing the project)

The following map shows the project area. Please use this map only as a general guide due to its reduced scale and limited detail. Feel free to contact me and I would be happy to answer any questions about this project.
