Subject: Oak Run Solar Project, Docket Number 22-549-EL-BGN

Members of the Ohio Power Siting Board,

As a Madison Fields Solar Project construction worker, I'd like to see the Oak Run Solar Project (OPSB Docket No. 22-549-EL-BGN) approved. Working on the existing Savion project within Madison County has been a positive experience for myself and my family, and I'd appreciate the opportunity to continue working in this community on Oak Run.

I spend money here on food, hospitality, entertainment, gas, supplies, and more. The business myself and my co-workers bring to local establishments is significant and will only continue with another project in this county.

We have a number of people on the job who are local to the project area who would love to keep working close to home on another Savion project. The quantity of work that Oak Run would provide for us and the local businesses we patronize on a daily basis would be a significant boon to families and to Madison County's economy.
