Subject: Solar

Clinton County to become the junkyard of solar panels. Once an agricultural community, now the nest egg for investors who care less for the environment. Investors who will pad their wallets at the expense of land owners who have spent years caring for, manicuring and enriching the soils. Greed is the essence. Disgrace is the issue.

Matt: I was curious, do you live adjacent to a solar farm? Would you move into such an area? Or, have you lived in an agricultural area for 48 years and then had a solar farm move into your beloved home? What would you do Matt? Some of my friends will be abutted on three sides by this disgrace.

It is so wrong to destroy farmland for these atrocities. You are playing on human greed. Some have spent a lifetime building a home for you to destroy. I don't know how you sleep. Perhaps once again greed washes this away.

Larry and Kay Martin
