Re: Case Number 21-1231-EL-BGN
Fountain Point Solar Project

To Whom It May Concern:

I reside in Perry Township, Logan County, Ohio. I am also in the Benjamin Logan School District.

There are roughly 35,000 to 40,000 visitors a year that come to Logan County. While making there way to Logan County, they are in search of something other than the big city they most likely came from. Logan County is home to Indian Lake (a 5,000 acre beautiful lake), Ohio Caverns, Mad River Mountain, just to name a few. We have many places people love to visit on a regular basis. The last thing they want to do is pass by thousands and thousands of solar panels.

Tourism is vital to Logan County's economy. Do vacationers come to visit industrial landscapes or beautiful green countryside? When is the last time you went shopping and found the perfect framed piece of art that has an image of thousands of solar panels to hang above your sofa?

Fountain Point Solar Project does not satisfy the public need, convenience, and necessity. Please listen to the majority of Logan County residents and deny this project.

Thank you,

Rhonda L. Moore
