**DOCKETING CASE #:**23-0301

**SUBJECT:** Cleveland Electric Illuminating Company - Protest Rate Case

Please docket the associated customer comment and/or attached in the case number referenced above under "Public Comments". This information was received by the Consumer Services Division through alternate channels and is being forwarded to be filed formally. This information is not the opinion of Staff and should not be viewed as such.

Description: First Energy Co wants to raise rates to assist in reimbursements for its Electric Securities Plans, citing the moneys it is already expended to raise the rates. Except that First Energy had an extra 60 million dollars to bribe Ohio politicians to pass legislation that would bring in almost a billion dollars to decertify and retire two electric power plants. Why are the electricity customers paying more? If the company had not bribed anyone they'd still have 60 MILLION DOLLARS- once again the good citizens pay for the bad deeds of a few rotten people. No punishment

was handed down to First Energy, and they're being rewarded with yet more public funds to misuse.

This message and any response to it may constitute a public record and thus may be publicly available to anyone who requests it.
