DOCKETING CASE #: 23-0301-EL-SSO

SUBJECT: Cleveland Electric Illuminating Company - Protest Rate Case

Please docket the associated customer comment and/or attached in the case number referenced above under "Public Comments". This information was received by the Consumer Services Division through alternate channels and is being forwarded to be filed formally. This information is not the opinion of Staff and should not be viewed as such.

Distribution charges are outrageous. My energy usage charges were 60 dollars and The Illuminating Company charged me 100 dollars for distribution. I feel consumers are being gouged. FirstEnergy reported Q2 2023 Revenue of 3 Billion Dollars with over \$200 million in profits to stakeholders. They've stated lower distribution costs and usage due to cooler weather compared to 2022 yet they are making more money. How is this acceptable? I contest the rates this company is allowed to charge consumers. Especially when consumers are left with no alternative choice of electric company such as apartment living.
