This information was received by the Consumer Services Division through alternate channels and is being forwarded to be filed formally. Objection to rate hike. We cannot afford continual rate hikes. This is not a warranted hike. In June 2023, rates doubled for consumers and people were asked to hire a third party into the mix.
The company continues to announce hundreds of millions in profits, yet the consumer is supposed to give more money? How much is enough?
The consumer cannot continue to foot increases so that energy companies can make themselves rich.
No to the rate hike. They need to invest the profits like other companies do.
