DOCKETING CASE #: 23-0301-EL-SSO

SUBJECT: Cleveland Electric Illuminating Company - Protest Rate Case

I am opposed to the proposed rate hike by First Energy. This is a company that has money to bribe elected officials and disregard its customers interests. Now, they want more money!!! We understand high costs and belt tightening. They have different concepts except when they want money. Please do not reward them. We have been hit with record high bills in a time of high inflation and they once again disregard their customers. I am against feeding their pockets to use the money to influence. Use their already gained funds and reinvest in the company's operations. Our trust in First Energy's management and interest is gone. I hope the PUCO does not join in with these utility companies to fleece the hard-working people who are trying to meet the needs of daily life. There needs to be some re-focusing on the people who support this company- We are not just a money pool. Where is the accountability to the customers?
