AEP wants to increase electricity rates in 2024—on top of skyrocketing energy prices in 2023—and the Public Utilities Commission of Ohio should deny these increases. AEP reaps billions in profits and should look at its bottom line before forwarding charges to Ohio consumers.

2023 OCT 10 AM 11:30
PUCO

The Electric Security Plan AEP Ohio is proposing is unjust. This Commission should be focused on affordability and equity.

-Customer programs should help customers cut costs and help with community ownership of energy use, not increase AEP's own assets and interests.

-Hundreds of millions of dollars for tree management, without more oversight, is unjust.

-Any opportunity for AEP to get money for dirty coal plants is unjust.

We need a better and more robust accounting of utilities in Ohio, and this needs to happen before rates are increased for Ohio consumers. The Public Utilities Commission shouldn't allow greedy monopolies to take advantage of ratepayers.

Frances	McClanahan	Columbus	Ohio	OH	I dislike the rate hikes, I am an elderly woman and I already pay far too much. I see the absurd amount of money that AEP is making and was a victim of the outages, I had to stay with my daughter because I am in a vulnerable population and also lost hundreds of dollars worth of groceries.
David	Richards	Grove City	Ohio	OH	I am a landlord of over 18 properties in Columbus. Many of my tenants live check to check like 70% of other Americans. How are they supposed to afford higher utilities after a worldwide pandemic and two recessions? Stop overpaying your executives and you will find you don't need more money.
Codey	Blevins	Grove City	Ohio	OH	Our electric went out on Christmas day, we had no means of heat, my wife and our animals bundled up to endure the 15 degree weather,

					<p>thankfully two hours into the blackout, our power was restored. Internal temperature? 49 degrees. We had outages last summer during the peak heat months in August. Our friends had to stay at a hotel due to the blackouts. Does this sound like a company that deserves more money?</p>
Cindi	Richards	Grove City	Ohio	OH	<p>My family members have been negatively effected by the outages that they have experienced through AEP, if I lived in the same area as my 80 year old mother, we would've had to stay in different accommodations due to the multiple days she was forced to go without electric during the summer. Thankfully, my home was not effected. Pull your heads out and fix the infrastructure with the astronomical assets you already make. A price hike on customers is disgusting.</p>
