Dear Ohio Power Siting Board,

I am opposing this project because it is going to ruin the surrounding land and the community will suffer for it. I personally will be affected because I currently live on Smith Road in Franklin Township where this project will be located. My husband and I have been in limbo on deciding what to do for over a year now on deciding whether we should move or stay and add on to our current home. I know we are not the only family that is going through the same taxing trial. It is rude and quite frankly so very inconsiderate to the community surrounding the project. I am also opposing the project because I go to St. John the Evangelist Church and know that it will absolutely affect it, and not for the better. I have gone to that wonderful church since I was a baby and it would be devastating if it were to suffer and possibly get shut down. The church is my second family and we are putting on our annual turkey dinner. I don't think that the surrounding community would like to see six or seven foot tall fences with barbed wire on top in the fields that surround this church. This project will affect so many and that is why I sole heartedly oppose it.

Sincerely,

Mary Jo Miller
