**RE: Pre-Application Notification Letter
In the matter of the Letter of Notification Application of Ohio
Power Company for a Certificate of Environmental
Compatibility and Public Need for the Conesville-Corridor 345 kV
Transmission Line Adjustment Project (Bermuda and Curley Stations)
in Case No. 23-1045-BLN**

Dear Ms. Troupe:

Ohio Power Company (the “Company”) files this pre-application notification letter for the above-referenced Project pursuant to Rule 4906-6-03(A) of the Ohio Administrative Code.

The Company has identified the need to construct the Conesville-Corridor 345 kV Transmission Line Adjustment Project (Bermuda and Curley Stations) (the “Project”), in the City of New Albany, Jersey Township, Licking County, Ohio and Plain Township, Franklin County, Ohio. The Project consists of re-routing 1.8-miles of the existing Conesville-Corridor 345 kV Transmission Line approximately 3,000 feet northeast to accommodate the proposed Curley and Bermuda 345 kV Stations (the stations will be filed under separate applications to the OPSB), which will support a new customer’s development in the area. The reroute will be located predominately within property currently owned by the customer. In addition to the Curley and Bermuda Station filings, subsequent filings will also be required for the new 345 kV line extensions into the Curley and Bermuda stations, as well as short tie lines between these stations and the customer’s station.

The Company anticipates that construction of the Project will begin in February 2024. The anticipated in-service date for the Project is November 2024.

Respectfully submitted,

/s/ Hector Garcia
Hector Garcia (0084517), Counsel of Record
Counsel for Ohio Power Company
