<b>Enter your Comment or Complaint:</b>	I'd like to voice my support for Oak Run Solar Project. I'm looking forward to the jobs it's going to bring to the area, not only from its construction and related activities, but also the new economic development it will attract once operational. High-tech manufacturing facilities are being sited near sources of renewable energy like Oak Run Solar. We could use that kind of industry here. The younger generation is interested in the types of jobs that we could attract to the area as a result of this project, and that's important to me. I	

	don't want to see my kids move away because there are no local job opportunities. Let's attract the kind of industry that will keep them here. Now is not the time to put up a "closed" sign in front of our community.
