Docketing Case Number:	22-549-EL-BGN
Project Name:	Oak Run Solar Project
Enter your Comment or Complaint:	I'd like the OPSB to give the green light to Oak Run Solar Project for the following reasons. We're just at the beginning of a massive energy and land use transformation. We're starting to see the possibilities around combining solar and agriculture, but we can be sure that by the time this project is completed we'll have firm opportunities to complement the primary use of clean energy production with farming practices. There are a few aspects of this that I'm excited about. Firstly, farmers will be paid to take the hay off the land in order to keep it from growing tall and shading the panels. Secondly, the work will be interesting and varied, with jobs for all skillsets and levels of experience from old timers cutting to youngsters helping to bale

	<p>to graziers shepherding their flocks. Thirdly, the change in land use can be carbon positive, which can be turned into another income stream for the farmer. We're at the cusp of something great here in Madison County, and there's so much to gain. I'd hate to see this opportunity wasted before we even get started. I think we owe it to ourselves to give this a shot. Please take all of these points into account when you consider approving this application.</p>
