DOCKETING DIVISION
Public Utilities Commission of Ohio

In light of the pressing climate crisis, I urge you to vote in favor of Clear Mountain Energy Center. Embracing solar energy is an effective strategy for decarbonization and economic development. By approving this project, we take a significant step toward mitigating climate change impacts in Ohio while growing our tax base and economy. Let us be the champions of environmental and fiscal stewardship and leave a sustainable legacy for generations to come.

Nicholas V. Ciniwald
