These project are destroying valuble farmland for the perpose outsiders and foreign nations profiting off of our area. sure these project will infuse money in to the local goverment but what good is that when the fed keeps printing money. madison county had a pact to protect farmland and you should honor that pact. I would love to see growth in madison county but positive long lasting growth not just some get rich scheme were there no were to be found after they make thier money. not to mention that these projects are going to make are land scape look like Detroit After the auto industry left when the 30 year deal is over.</p> |
