RE: Application for Rehearing for Case No. 21-1011-TR-CVF (Formerly Case No. OH322005114C)

Dear Sir or Madam:

We received notice of Preliminary Determination dated September 9, 2021, regarding Case No. OH322005114C, now listed as **Case No. 21-1011-TR-CVF** and are applying for Rehearing of this case as the hearing date of June 22, 2022 for North Star to present physical evidence was cancelled by Kyle L. Kern on behalf of the PUCO, per an Email North Star received on June 21, 2022.

Enclosed with this letter, please find copies of documentation regarding the Motion to Continue Hearing as referenced above, as well as other documentation related to Case No. 21-1011-TR-CVF. This Motion, at the request of the PUCO, states that another hearing would be set at a later date.

As no new date was provided giving North Star the opportunity to present further evidence to counter the perceived violations as planned during the original hearing date regarding Case No. 21-1011-TR-CVF, we respectfully ask for a re-hearing date, allowing North Star to provide its evidence.

Included in our letter on September 16, 2021, was a diagram as a visual reference and we are including again for our rehearing application request. We would like to submit this request for further review of the following violation(s).

<u>CODE</u>	<u>GROUP</u>	<u>VIOLATION</u>	<u>Review Requested</u>
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.47	Group 1	Inadequate brakes for safe stopping – Brake Lining Condition	Agree – Brake Lining issue resolved

On the trailer in question, for above listed violation Code 393.48 (4 instances), the Dexter Axle 10k-12k /Disc brakes were inspected and the shoulder screw was noted to our driver as the issue as the shoulder screw was not locked in and had movement. Shoulder bolts, or shoulder screws, have a long, unthreaded, cylindrical shoulder that allows for the rotation of attached parts like pulleys, gears, moving parts of engines and mechanical assemblies, and rolling wheels. (Please see the diagram as a visual.) We would appreciate further consideration on the 4 violations listed under Code 393.48 for this reason.

We thank you for your time and should there be further questions, please feel free to reach me at 740-254-4567 or my direct line of 740-218-3212.

We appreciate the opportunity to apply for re-hearing so that we may present our evidence in person as originally planned.

Thank you,

Good afternoon,

Per a phone conversation with a representative from the PUCO earlier this afternoon, I am writing to you on behalf of our organization, North Star Metals Mfg. Co. to inform you that we would like to bring/submit physical evidence for our upcoming hearing. Our organization is scheduled for a hearing at 10AM on June 22, 2022 at the PUCO Office, 180 E. Broad Street, Hearing Room 11-C, Columbus, Ohio 43215.

Attached you will find a few attachments of documentation sent between the PUCO and our organization. In the attachment with our letter to the PUCO, there page 2 shows an example of a Hydraulic Disc Brake. At this time, our team members, Victor Hottinger and Darren Galbraith, plan to bring the physical part to show how it functions to ensure understanding of the part, which is difficult to represent in the documents.

Should there be any issues with our team bringing in this evidence, please feel free to contact our main number and ask for either Victor or Darren, as I will be out of the office on Tuesday, June 21, 2022 when you may be back in the office. (I was informed by the PUCO representative on the phone that there will be a federal holiday observed on Monday, June 22, 2022.) Our team members will be

leaving early in the morning Wednesday, as they live roughly 2 hours from the PUCO offices.

Thank you and have a wonderful weekend!

RE: Notice of Preliminary Determination, Case No. OH322005114C

Dear Sir or Madam:

We received notice of Preliminary Determination regarding Case No. OH322005114C. Enclosed with this letter, please find a copy of a diagram as a visual reference for our review request and the Notice Dated September 9, 2021. We would like to submit request for further review of the following violation(s).

<u>CODE</u>	<u>GROUP</u>	<u>VIOLATION</u>	<u>Review Requested</u>
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.48	Group 1	Inoperative/defective brakes	Please Review – Nothing to resolve
393.47	Group 1	Inadequate brakes for safe stopping – Brake Lining Condition	Agree – Brake Lining issue resolved

On the trailer in question, for above listed violation Code 393.48 (4 instances), the Dexter Axle 10k-12k /Disc brakes were inspected and the shoulder screw was noted to our driver as the issue as the shoulder screw was not locked in and had movement. Shoulder bolts, or shoulder screws, have a long, unthreaded, cylindrical shoulder that allows for the rotation of attached parts like pulleys, gears, moving parts of engines and mechanical assemblies, and rolling wheels. (Please see the diagram as a visual.) We would appreciate further consideration on the 4 violations listed under Code 393.48 for this reason.

We thank you for your time and should there be further questions, can make a part of our staff available. Our Main number is 740-254-4567, with offices open from 8AM-5PM, Monday through Friday, with our Maintenance/Mechanic staff leaving at approximately 3pm each day.

We appreciate your further consideration and opportunity for review.

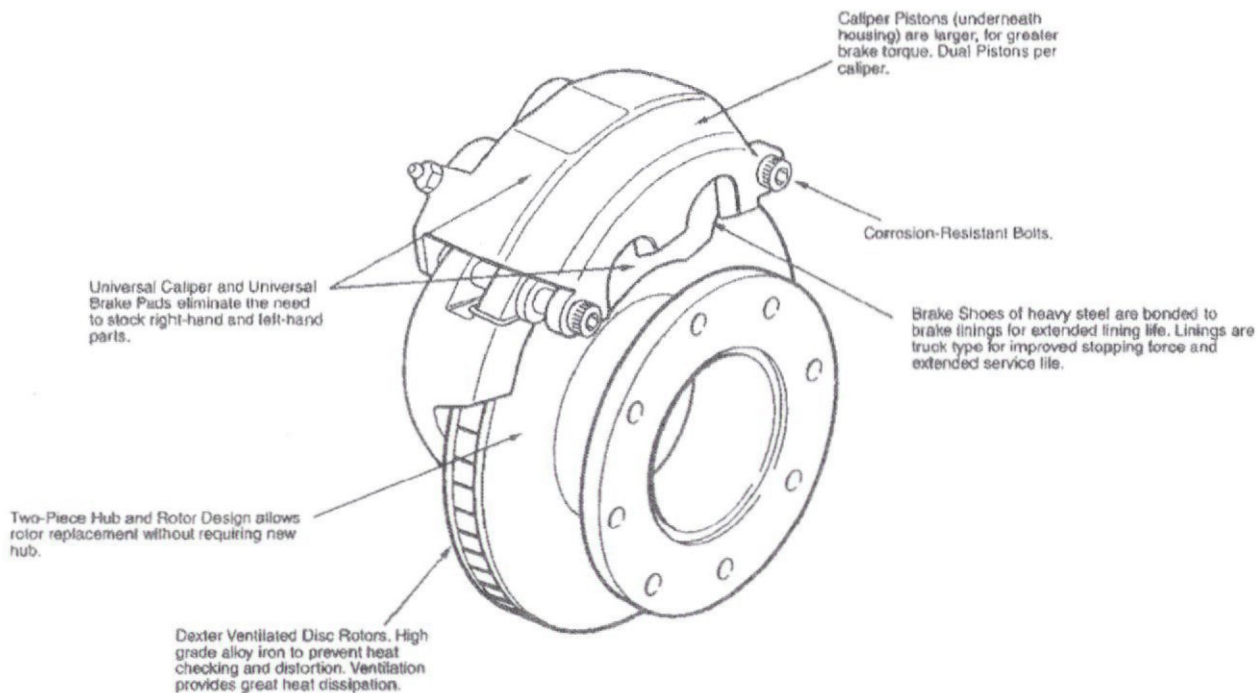

Thank you,

Heather E. Crews,
