23-45-EL-BGN

I am a resident of Williamsburg, Ohio and I am a supporter of the Clear Mountain Energy Center Project because the practice of agrivoltaics is an excellent way to find ways to bring renewable energy and agriculture together. It should not be a zero-sum game between farming and producing renewable energy. We should not give up the opportunity to make this a reality here in Clermont County especially when there is no cost to us residents on top of the financial benefits that are guaranteed during the life of the project. I urge the Ohio Power Siting Board to approve this project, Clear Mountain Energy Center (23-0045-EL-BGN)!
