Dear Ohio Power Siting Board Members and Staff,

I am writing to urge your support for the Stark Solar project (Case #23-0931-EL-BGN) that is being proposed in Stark County, Ohio.

Stark Solar will benefit Stark County, along with Ohio statewide, by increasing our domestic energy production, reducing the need to import energy from outside Ohio, increasing funding to local schools and services in Stark County, boosting the local economy, creating jobs, and helping preserve farmland for generations to come.

The energy produced by Stark Solar is enough to power the equivalent of over 27,750 homes in Ohio. All of that energy is clean. Meaning no additional emissions coming from the Buckeye State!

Please support the project and invest in Ohio's future. Stark Solar is a win-win.

Solar is clean and now available.

Sincerely,

Sandra Beichler
