RE: Commencement of Limited Demolition and Construction Activities
Lima Energy IGCC Facility
Cases No.: 00-0513-EL-BGN
04-1011-EL-BGA

Dear Mr. Lockwood:

Staff attended your October 4, 2005, pre-construction conference. This conference was held for the purpose of reviewing Lima Energy's plans to conduct limited demolition and construction activities associated with the foundation of the coal storage building. In preparation for this conference, Lima Energy provided information to staff as required in Conditions 5 and 6 of the Certificate. Further, Lima Energy's plans and capabilities to conduct construction activities in compliance with the Certificate were discussed at the meeting. All necessary issues associated with the limited demolition and construction activities have been satisfactorily addressed by Lima Energy.

Commencement of the demolition and construction activities described above is authorized for the project. Please notify the Board when activities associated with this stage of construction are completed.

Very truly yours,

Klaus Lambeck, Chief
Facilities, Siting & Environmental Analysis Division
