

- (5) Upon review, the Commission finds that NS's request to modify the warning devices at the County Road 16 grade crossing (477-500S), located in Montpelier, Williams County, should be granted contingent on NS's compliance with Part VIII of the Manual of Uniform Traffic Control Devices and provided that new track used in this project is equipped with grade crossing predictors as indicated on the submitted plans. Finally, NS should provide regular updates to the staff and Madison Township on the progress on this project.

It is, therefore,

ORDERED, That NS's request to modify the warning devices at the County Road 16 grade crossing is approved as set forth in Finding (5). It is, further,

ORDERED, That a copy of this entry be served on Norfolk Southern Railway Company and its counsel, Madison Township, and all other interested persons of record.
