RE: In the Matter of the Application of The Champaign Telephone Company to Amend its Tariff to Add a Data Transport Service, PUCO Case No. 01-2474-TP-ATA

Dear Ms. Crockron:

Enclosed are an original and three (3) copies of final tariff sheets, to be filed on behalf of The Champaign Telephone Company ("Champaign"). The TRF Number for Champaign is 90-5011-TP-TRF.

Thank you for your assistance. If you have any questions, please do not hesitate to call.

Very truly yours,

Carolyn S. Flahive

Enclosures

This is to certify that the judges appearing are an  
original and complete copy of the tariff and file  
number delivered in the regular course of business

SECTION 12. DATA EXPRESS (Cont'd)

12.3 Ethernet Transport Service

12.31 General

Ethernet Transport Service (ETS) is a data transport service that hands off traffic using a data connection to the customer. The customer is defined as an entity providing digital subscriber loop service via a data switch. This service is provisioned through the use of transport from The Champaign Telephone Company's end office. User data is transmitted to the customer via dedicated end office port groups.

ETS provides transport, or an Ethernet bridge, extending the port service to a loop length of up to 8,000 feet. ETS carries the traffic for a DSL transparent LAN service using a T1 trunk group. It must be used in conjunction with the Ethernet Port service described in Section 12.2 of this tariff, and is limited to the use of one T1.

12.32 Regulations

Provisioning of this service is subject to the availability and operational limitations of The Champaign Telephone Company's equipment and associated facilities.

- A. The customer is responsible for the installation, operation and maintenance of any and all customer provided equipment (CPE) including terminal equipment, communications system and software. The CPE must be compatible with The Champaign Telephone Company's equipment and facilities. The CPE must conform to industry standards and specifications.
- B. Toll charges will apply if the call is originated outside of the customer's subscribed calling area.
- C. The Champaign Telephone Company reserves the right to monitor its network at all times to ensure its proper use. If the Telephone Company determines that the service is being used for non-data applications, the customer will be given thirty days written notification to discontinue the unauthorized use. Failure to do so will result in the customer being disconnected.
- D. Any CPE must not:
  - a. Endanger the safety of the Telephone Company's employees or the public;
  - b. Damage, harm, require change in or alteration of the equipment or other services of the Telephone Company; or
  - c. Interfere with proper operation of the Telephone Company's equipment.

Upon notice that the equipment provided by the customer or end user is causing, or is likely to cause, such hazard or interference, the customer shall remove the equipment.
