Re: Ameritech Ohio/Jato Operating Two Corp.  
Case No. 00-589-TP-NAG

Dear Ms. Crockron:

Ameritech Ohio submits for the Commission's review amended pages 27 and 95 of its agreement with Jato Operating Two Corp. which was filed for Commission review on March 29, 2000.

The Staff requested that the agreement be amended to eliminate the footnotes on those two pages. In agreeing to remove the footnotes from the agreement, however, Ameritech Ohio reserves all of its rights as set forth in the respective footnotes as submitted on March 29, 2000 as if fully set forth in this letter.

Thank you for your attention to this matter. Please contact me if you have any questions.

Very truly yours,

Enclosures

compared with providing that service over other unbundled Network Elements in Ameritech's network.

9.1.3 Ameritech shall make available access to its Network Elements at the rates specified herein only where such Network Elements, including facilities and software necessary to provide such Network Elements, exist (as such Network Element is defined herein) and are available. If Ameritech makes available access to a Network Element that requires special construction or conditioning, Requesting Carrier shall pay to Ameritech any applicable special construction or conditioning charges. The Parties shall mutually agree on the nature and manner of any required special construction or conditioning, the applicable charges thereto and the negotiated interval(s) that will apply to the provisioning of such Network Element(s) in lieu of the standard intervals set forth on **Schedule 9.10**.

**9.2 Network Elements.**<sup>4/</sup> At the request of Requesting Carrier, Ameritech shall provide Requesting Carrier access to the following Network Elements on an unbundled basis:

9.2.1 Local Loops, as more fully described on **Schedule 9.2.1**;

9.2.2 The Network Interface Device, as more fully described on **Schedule 9.2.2**;

9.2.3 Switching Capability, as more fully described on **Schedule 9.2.3**;

9.2.4 Interoffice Transmission Facilities, as more fully described on **Schedule 9.2.4**;

9.2.5 Signaling Links and Call-Related Databases, as more fully described on **Schedule 9.2.5**;
