RE: Keeping Toledo Edison in Clyde OH 43410  
Withdrawing Columbia Gas Weather Normalization Program

95-2-EL-ABN

Dear Sirs,

95-987-GTAIR

We're writing to protest in Clyde city attempt to force Toledo Edison out of town. By forcing them out of town our electric rates could go out of reason as have our water and sewer rates. We realize the PUCO has no control over municipal owned utilities and we feel competition is necessary.

Also the Columbia Gas Weather Normalization Program should be discontinued after this four month trial period. We don't mind paying for the utility we use but feel this method is unduly unfair.

Sincerely,

*Arlyn and Patricia Newhouse*
