

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Joint Petition of)
Ohio Edison Company and Lorain-Medina) Case No. 99-100-EL-PEB
Rural Electric Co-Op Requesting Revision)
to a Territorial Boundary Map.)

ENTRY

The Commission finds:

- (1) Ohio Edison Company (Ohio Edison) and Lorain-Medina Rural Electric Co-Op (Lorain-Medina) are electric suppliers as defined in Section 4933.81, Revised Code.
- (2) Certification by the Commission of the territories of Ohio Edison and Lorain-Medina was approved by Entries dated September 28, 1983 and November 5, 1980 in Case No. 78-1311-EL-ORD.
- (3) Ohio Edison and Lorain-Medina have jointly petitioned the Commission to reallocate their service territories in Westfield Township, Medina County, Ohio. Specifically, they request the following relocation:

On quadrangle map F-24 Westfield Center, relocate the existing territorial boundary line beginning at a point 1,430 feet east of an existing abandoned railroad bed and existing territorial boundary line intersect; thence north 211 feet along leased property line; thence east 60 feet along leased property line; thence south 170 feet along leased property to a point where the relocated line meets the existing territorial boundary line.

- (4) In support of their request, the petitioners state that the boundary line needs to be relocated so as to allow a single supplier to most economically serve a new commercial customer.
- (5) Section 4933.83 (E), Revised Code, provides in pertinent part:

Notwithstanding the effectuation of certified territories established by or pursuant to Sections 4933.81 to 4933.90 of the Revised Code, and the exclusive right of electric suppliers to serve within such territory, and notwithstanding any other provisions of such sections establishing rights of electric suppliers to furnish electric service, any two or more electric suppliers may jointly petition the Commission for the reallocation of their own territories and electric load centers among them and designating which portions of such territories

and electric load centers are to be served by each of the electric suppliers.

- (6) The Staff has reviewed this petition and recommends approval of the boundary line relocation described in Finding (3).
- (7) No exception to the change described in Finding (3) has been brought to the Commission's attention.
- (8) The Commission finds that granting the requested relief will promote the purposes of Sections 4933.81 to 4933.90, Revised Code, and will further promote the provisions of adequate service to all territories and electric load centers affected by the relocation. Accordingly, the Commission shall order the appropriate modification of the territorial boundary of Ohio Edison and Lorain-Medina.

It is, therefore,

ORDERED, That the request of Ohio Edison and Lorain-Medina to relocate their territory boundary is granted. It is, further,

ORDERED, That the change on quadrangle map F-24 Westfield Center, described in Finding (3), be approved to show the boundary line change. It is, further,

ORDERED, That a copy of this Entry be served upon each party of record.
